MOLDINGS

We offer matching moldings to perfectly complement your engineered luxury vinyl floors.

T-MOLDING

This molding is used in doorways and entryways or for transition between same floor levels. Transition moldings are required every 60 feet (18.29 m) in any direction and at all doorways.

REDUCER

This molding provides a smooth transition between floor coverings with different heights.

FLUSHMOUNT STAIR NOSE

This molding is used to properly finish each step and enhance the beauty of a landing. Its main advantage is being of the same height as the floor covering which prevents it from becoming a trip hazard.
